THE second volume of the 'Hand-list' of Birds is believed to be a correct record of all the species of *Psittaci* and of what are known generally as 'Picarian' birds.

The number of genera and species enumerated in the two volumes of the 'Hand-list' is as follows :—

Vol. I.	830 genera	3626 species.
Vol. II.	454 „	2861 „
	<hr/>	<hr/>
Total	1284 genera	6487 species.

The number of generic names given by the late George Robert Gray in his 'Hand-list' (1869-71) is 1453, but it must be remembered that that author gave a number to every sub-generic name mentioned by him, so that not more than half of the genera indicated by him had any real existence, and that probably not more than 700 have been recognized by succeeding writers. This would give an increase of about 500 or more generic names adopted since 1871 in the groups of birds other than Passerine. In the same number of Families as has now been enumerated in the two volumes of the new 'Hand-list,' Gray admitted some 4940 species, so that in the thirty years which have elapsed since he wrote nearly 1500 additional species have been described. Dr. Sharpe,

who has made this computation at my request, considers that the number may even be higher than 1500, as many of the species in Gray's 'Hand-list' have not been recognized.

I trust that the Index issued with the present volume will be found of service, as not only the author himself, but also some other ornithologists, have represented to me that such an Index would greatly increase the utility of the work.

INTRODUCTION.

By one of those accidents "which," as a friendly reviewer in the 'Athenæum' observes, "indicate the personality of Ahriman," the slip of MS. containing the *Palamedeiformes* appears to have been mislaid or destroyed, and never to have reached the printer. This omission not only escaped my own observation, but that of every one of the kind friends who were looking over my proofs.

I have, therefore, to ask those who possess the first volume of this 'Hand-list' to insert the annexed page in its proper place in Vol. I. (p. 295), and to alter the numbers of the Orders from the *Auseriformes* onward. The Order *Strigiformes*, with which the volume ends, should have been numbered XXVII. instead of XXVI.

It will be noticed that I have reverted to the old-fashioned name of *Cypselus* for the Swifts, instead of *Apus* of Scopoli. The latter name having been adopted by Mr. Hartert in the 'Tierreich,' has been employed by most recent authors who have followed the example of this great authority on the *Cypselidae*. Professor Ray Lankester has, however, drawn my attention to the inconvenience which would occur from the adoption of *Apus* in Ornithology, as it is a well-known name in Crustacea, and has been in constant use for more than a century. Laying aside its ancient occurrence in the work of Schaeffer, as being pre-Linnean and inadmissible, we find that Scopoli used both *Apus* and *Apus* in the same work, 'Introductio ad Historiam naturalem,' 1777. *Apus* is assigned to the Crustacea on p. 404, antedating *Apus* for the Swifts on p. 183 of the same work. The only question to be considered is whether *Apus* and *Apus* mean the same thing, and whether Scopoli did not insert

two such very similar names in his book by misadventure. Mr. Hartert thinks that both names may be employed, *ἄπος* being the Greek for "weariness; a tedious thing," whilst *ἄπους* of course means "without feet." There are many names in use, I allow, equally similar in appearance, *Pica* and *Picus* for example, but I think that even in this case it may perhaps be better to suppress *Pica* as the generic name for the Magpies. As the latinization of *ἄπος* and *ἄπους* is the same, *Apus*, it is better that one of them should become extinguished, and the name *Apus* for the Swifts, being posterior in date to *Apus* in the Crustacea, should be the one to disappear, especially as it has but recently been employed by Ornithologists*. For my own part I gladly accept any excuse which restores such a well-known name as *Cypselus*; and I only regret that equally good reasons cannot be found to replace some of the old-fashioned generic names which recent research proves to have been ante-dated. These changes may be strictly correct, but they are very disturbing, especially to those naturalists who are aiming at a universally recognized nomenclature in Zoology. They appear, however, to be inevitable, and one day we may hope to arrive at some degree of finality. I would urge, however, on all ornithologists, that the fullest advantage should be taken of any doubt which can prevent the displacement of some well-known generic or specific name by a less-known one.

As with the previous volume, I have received the greatest assistance from my colleagues, who have looked over the proofs of this second volume of the 'Hand-list.' Even with the 'Catalogue of Birds' as a basis for a 'Hand-list,' the production of the latter is an exceedingly difficult task, and I shall greatly miss the revision of future volumes by my late friend Dr. Elliott Coues, who gave me freely the result of his great knowledge of birds and their literature. No friend could have taken more interest in the work than he did, and his help was invaluable; but the list of ornithologists who have gone over and criticised my proofs is a long one, viz.:—

England.—Dr. P. L. Selater, Mr. Howard Saunders, Hon. Walter Rothschild, Mr. Ernst Hartert, Mr. W. R. Ogilvie Grant, Mr. C. W. Andrews, Mr. Eugene Oates, Mr. W. P. Pycraft.

France.—The late Professor Milne-Edwards, Dr. Oustalet.

Holland.—Dr. Otto Finsch.

Germany.—Professor A. Reichenow, Dr. A. B. Meyer, Count von Berlepsch.

Russia.—Dr. Bianchi.

Italy.—Count Salvadori.

America.—The late Prof. Elliott Coues, Prof. Robert Ridgway, Dr. L. Stejneger, Prof. J. A. Allen, Mr. Frank M. Chapman, Mr. C. W. Richmond, Mr. Witmer Stone, Mr. Harry Oberholser.

I offer my best thanks to all these kind friends for the help so readily afforded.

* It is not often that I have had occasion to differ from the conclusions of Count Salvadori, whose judgment on vexed questions of nomenclature I have been able to follow in the majority of cases, but his argument for the adoption of the genus *Caica* seems to me to be the best that could have been employed to secure the rejection of the name. If he had not so cleverly explained the complications which surround its adoption, no one would probably have felt any qualms as to its recognition.

Vol. II. The Genus *Turbinaria*; the Genus *Astræopora*. By Henry M. Bernard, M.A. Cantab., F.L.S., F.Z.S. Pp. iv., 106. 30 Collotype and 3 Lithographic Plates. [With Index of Generic and Specific Names, and Explanation of the Plates.] 1896, 4to. 18s.

Vol. III. The Genus *Montipora*; the Genus *Anacropora*. By Henry M. Bernard, M.A. Pp. vii., 192. 30 Collotype and 4 Lithographic Plates. [With Systematic Index, Index of Generic and Specific Names, and Explanation of the Plates.] 1897. 4to. 1l. 4s.

BRITISH ANIMALS.

Catalogue of British Birds in the Collection of the British Museum. By George Robert Gray, F.L.S., F.Z.S., &c. Pp. xii., 248. [With a List of Species.] 1863, 8vo. 3s. 6d.

Catalogue of British Hymenoptera in the Collection of the British Museum. Second edition. Part I. Andrenidæ and Apidæ. By Frederick Smith, M.E.S. New Issue. Pp. xi., 236. 11 Plates. [With Systematic and Alphabetical Indexes.] 1891, 8vo. 6s.

Catalogue of British Fossorial Hymenoptera, Formicidæ, and Vespidæ in the Collection of the British Museum. By Frederick Smith, V.P.E.S. Pp. 236. 6 Plates. [With an Alphabetical Index.] 1858, 12mo, 6s.

A Catalogue of the British Non-parasitical Worms in the Collection of the British Museum. By George Johnston, M.D., Edin., F.R.C.L., Ed., LL.D., Marischal Coll., Aberdeen, &c. Pp. 365. Woodcuts and 24 Plates. [With an Alphabetical Index.] 1855, 8vo, 7s.

Catalogue of the British Echinoderms in the British Museum (Natural History). By F. Jeffrey Bell, M.A. Pp. xvii., 202. Woodcuts and 16 Plates (2 Coloured). [With Table of Contents, Tables of Distribution, Alphabetical Index, Description of the Plates, &c.] 1892, 8vo, 12s. 6d.

List of the Specimens of British Animals in the Collection of the British Museum: with Synonyma and References to figures. 12mo.:—

Part IV. Crustacea. By A. White. Pp. iv., 141. (With an Index.) 1850. 2s. 6d.

Part V. Lepidoptera. By J. F. Stephens. 2nd Edition. Revised by H. T. Stainton and E. Shepherd. Pp. iv., 224. 1856, 1s. 9d.

Part VI. Hymenoptera. By F. Smith. Pp. 134. 1851. 2s.

Part VII. Mollusca, Acephala and Brachiopoda. By Dr. J. E. Gray. Pp. iv., 167. 1851, 3s. 6d.

Part VIII. Fish. By Adam White. Pp. xxiii., 164. (With Index and List of Donors.) 1851, 3s. 6d.

Part IX. Eggs of British Birds. By George Robert Gray. Pp. 143. 1852, 2s. 6d.

Part XI. Anoplura, or Parasitic Insects. By H. Denny. Pp. iv., 51. 1852, 1s.

Part XII. Lepidoptera (continued). By James F. Stephens. Pp. iv., 54. 1852, 9d.

Part XIII. Nomenclature of Hymenoptera. By Frederick Smith. Pp. iv., 74. 1853, 1s. 4d.

Part XIV. Nomenclature of Neuroptera. By Adam White. Pp. iv., 16. 1853, 6d.

Part XV. Nomenclature of Diptera, I. By Adam White. Pp. iv., 42. 1853, 1s.

Part XVI. Lepidoptera (completed). By H. T. Stainton. Pp. 199. [With an Index.] 1854, 3s.

Part XVII. Nomenclature of Anoplura, Euplexoptera, and Orthoptera. By Adam White. Pp. iv., 17. 1855, 6d.

PLANTS.

Catalogue of the African Plants collected by Dr. Friedrich Welwitsch in 1853–61.—Dicotyledons. By William Philip Hiern, M.A., F.L.S., &c.:—

Part I. [Ranunculacæ to Rhizophoracæ.] Pp. xxvi., 336. [With Portrait of Dr. Welwitsch, Introduction, Bibliography, and Index of Genera.] 1896, 8vo, 7s. 6d.

Catalogue of African Plants—*continued*.

Part II. Combretaceæ to Rubiaceæ. Pp. 337–510.

[With Index of Genera.] 1898, 8vo. 4s.

Part III. Dipsacæ to Scrophulariaceæ. Pp. 511–784.

[With Index of Genera.] 1898, 8vo. 5s.

Vol. II., Part I. Monocotyledons and Gymnosperms.

By Alfred Barton Rendle, M.A., D.Sc. F.L.S., Assistant,
Department of Botany. Pp. 260. [With Index of
Genera.] 1899, 8vo. 6s.

A Monograph of Lichens found in Britain : being a Descriptive Catalogue of the Species in the Herbarium of the British Museum. By the Rev. James M. Crombie, M.A., F.L.S., F.G.S., &c. Part I. Pp. viii., 519 : 74 Woodcuts. [With Glossary, Synopsis, Tabular Conspectus, and Index.] 1894, 8vo. 16s.

A Monograph of the Mycetoza : being a Descriptive Catalogue of the Species in the Herbarium of the British Museum. By Arthur Lister, F.L.S. Pp. 224. 78 Plates and 51 Woodcuts. [With Synopsis of Genera and List of Species, and Index.] 1894, 8vo. 15s.

List of British Diatomaceæ in the Collection of the British Museum. By the Rev. W. Smith, F.L.S., &c. Pp. iv., 55. 1859, 12mo. 1s.

FOSSILS.

Catalogue of the Fossil Mammalia in the British Museum (Natural History). By Richard Lydekker, B.A., F.G.S. :—

Part I. Containing the Orders Primates, Chiroptera, Insectivora, Carnivora, and Rodentia. Pp. xxx., 268. 33 Woodcuts. [With Systematic and Alphabetical Indexes.] 1885, 8vo. 5s.

Part II. Containing the Order Ungulata, Suborder Artiodactyla. Pp. xxii., 324. 39 Woodcuts. [With Systematic and Alphabetical Indexes.] 1885, 8vo. 6s.

Part III. Containing the Order Ungulata, Suborders Perissodactyla, Toxodontia, Condylarthra, and Amblypoda. Pp. xvi., 186. 30 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1886, 8vo. 4s.

Part IV. Containing the Order Ungulata, Suborder Proboscidea. Pp. xxiv., 235. 32 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1886, 8vo. 5s.

Part V. Containing the Group Tillodontia, the Orders Sirenia, Cetacea, Edentata, Marsupialia, Monotremata, and Supplement. Pp. xxxv., 315. 55 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1887, 8vo. 6s.

Catalogue of the Fossil Birds in the British Museum (Natural History). By Richard Lydekker, B.A. Pp. xxvii., 368. 75 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1891, 8vo. 10s. 6d.

Catalogue of the Fossil Reptilia and Amphibia in the British Museum (Natural History). By Richard Lydekker, B.A., F.G.S. :—

- Part I. Containing the Orders Ornithosauria, Crocodilia, Dinosauria, Squamata, Rhynchocephalia, and Proterosauria. Pp. xxviii., 309. 69 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1888, 8vo. 7s. 6d.
- Part II. Containing the Orders Ichthyopterygia and Sauropterygia. Pp. xxi., 307. 85 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1889, 8vo. 7s. 6d.
- Part III. Containing the Order Chelonia. Pp. xviii., 239. 53 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1889, 8vo. 7s. 6d.
- Part IV. Containing the Orders Anomodontia, Ecaudata, Caudata, and Labyrinthodontia; and Supplement. Pp. xxiii., 295. 66 Woodcuts. [With Systematic Index, Alphabetical Index of Genera and Species, including Synonyms, and Alphabetical Index of Genera and Species to the entire work.] 1890, 8vo. 7s. 6d.

Catalogue of the Fossil Fishes in the British Museum (Natural History). By Arthur Smith Woodward, F.G.S., F.Z.S. :—

- Part I. Containing the Elasmobranchii. Pp. xlvii., 474. 13 Woodcuts and 17 Plates. [With Alphabetical Index, and Systematic Index of Genera and Species.] 1889, 8vo. 21s.
- Part II. Containing the Elasmobranchii (Acanthodii), Holocephali, Ichthyodermulites, Ostracodermi, Dipnoi, and Teleostomi (Crossopterygii and Chondrostei Actinopterygii). Pp. xlv., 567. 58 Woodcuts and 16 Plates. [With Alphabetical Index, and Systematic Index of Genera and Species.] 1891, 8vo. 21s.
- Part III. Containing the Actinopterygian Teleostomi of the Orders *Chondrostei* (concluded), *Protospondyli*, *Aethospondyli*, and *Isospondyli* (in part). Pp. xlii., 511. 45 Woodcuts and 18 Plates. [With Alphabetical Index, and Systematic Index of Genera and Species.] 1895, 8vo. 21s.

Systematic List of the Edwards Collection of British Oligocene and Eocene Mollusca in the British Museum (Natural History), with references to the type-specimens from similar horizons contained in other collections belonging to the Geological Department of the Museum. By Richard Bullen Newton, F.G.S. Pp. xxviii., 365. [With table of Families and Genera, Bibliography, Correlation-table, Appendix, and Alphabetical Index.] 1891, 8vo. 6s.

Catalogue of Tertiary Mollusca in the Department of Geology, British Museum (Natural History). Part I. The Australasian Tertiary Mollusca. By George F. Harris, F.G.S., etc. Pp. xxvi., 107. 8 Plates. [With Table of Families, Genera, and Subgenera, and Index.] 1897, 8vo. 10s.

Catalogue of the Fossil Cephalopoda in the British Museum (Natural History):—

Part I. Containing part of the Suborder Nautiloidea, consisting of the families Orthoceratidae, Endoceratidae, Actinoceratidae, Gomphoceratidae, Ascoceratidae, Pterioceratidae, Cyrtoceratidae, and Supplement. By Arthur H. Foord, F.G.S. Pp. xxxi., 344. 54 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1888, 8vo. 10s. 6d.

Part II. Containing the remainder of the Suborder Nautiloidea, consisting of the families Lituitidae, Trochoceratidae, Nautilidae, and Supplement. By Arthur H. Foord, F.G.S. Pp. xxviii., 407. 86 Woodcuts. [With Systematic Index, and Alphabetical Index of Genera and Species, including Synonyms.] 1891, 8vo. 15s.

Part III. Containing the Bactritidae, and part of the Suborder Ammonoidea. By Arthur H. Foord, Ph.D., F.G.S., and George Charles Crick, A.R.S.M., F.G.S. Pp. xxxiii., 303. 146 Woodcuts. [With Systematic Index of Genera and Species, and Alphabetical Index.] 1897, 8vo. 12s. 6d.

List of the Types and Figured Specimens of Fossil Cephalopoda in the British Museum (Natural History). By G. C. Crick, F.G.S. Pp. 103. [With Index.] 1898, 8vo. 2s. 6d.

A Catalogue of British Fossil Crustacea, with their Synonyms and the Range in Time of each Genus and Order. By Henry Woodward, F.R.S. Pp. xii., 155. [With an Alphabetical Index.] 1877, 8vo. 5s.

A Catalogue of the Fossil Bryozoa in the Department of Geology, British Museum (Natural History):—The Jurassic Bryozoa. By J. W. Gregory, D.Sc., F.G.S., F.Z.S. Pp. [viii.,] 239. 22 Woodcuts and 11 Plates. [With List of Species and Distribution, Bibliography, Index, and Explanation of Plates.] 1896, 8vo. 10s.

A Catalogue of the Fossil Bryozoa in the Department of Geology, British Museum (Natural History):—The Cretaceous Bryozoa. Vol. I. By J. W. Gregory, D.Sc., F.G.S., F.L.S. (of Eton College). Pp. viii., 457. 64 Woodcuts and 17 Plates. [With Index and Explanation of Plates.] 1899, 8vo. 16s.

Catalogue of the Blastoida in the Geological Department of the British Museum (Natural History), with an account of the morphology and systematic position of the group, and a revision of the genera and species. By Robert Etheridge, jun., of the Department of Geology, British Museum (Natural History), and P. Herbert Carpenter, D.Sc., F.R.S., F.L.S. (of Eton College). Pp. xv., 322. 20 Plates. [With Preface by Dr. H. Woodward, Table of Contents, General Index, Explanations of the Plates, &c.] 1886, 4to. 25s.

The Genera and Species of Blastoidea, with a List of the Specimens in the British Museum (Natural History). By F. A. Bather, M.A., F.G.S., of the Geological Department. Pp. x., 70. 1 Woodcut. 1899, 8vo, 3s.

Catalogue of the Fossil Sponges in the Geological Department of the British Museum (Natural History). With descriptions of new and little known species. By George Jennings Hinde, Ph.D., F.G.S. Pp. viii., 248. 38 Plates. [With a Tabular List of Species, arranged in Zoological and Stratigraphical sequence, and an Alphabetical Index.] 1883, 4to, 1l. 10s.

Catalogue of the Fossil Foraminifera in the British Museum (Natural History). By Professor T. Rupert Jones, F.R.S., &c. Pp. xxiv., 100. [With Geographical and Alphabetical Indexes.] 1882, 8vo, 5s.

Catalogue of the Palaeozoic Plants in the Department of Geology and Palaeontology, British Museum (Natural History). By Robert Kidston, F.G.S. Pp. viii., 288. [With a list of works quoted, and an Index.] 1886, 8vo, 5s.

Catalogue of the Mesozoic Plants in the Department of Geology, British Museum (Natural History). The Wealden Flora. By A. C. Seward, M.A., F.G.S., University Lecturer in Botany, Cambridge :—

Part I. Thallophyta—Pteridophyta. Pp. xxxviii., 179 : 17 Woodcuts and 11 Plates. [With Preface by Dr. Woodward, Alphabetical Index of Genera, Species, &c. Explanations of the Plates, &c.] 1894, 8vo, 40s.

Part II. Gymnospermæ. Pp. viii., 259. 9 Woodcuts and 20 Plates. [With Alphabetical Index, Explanations of the Plates, &c.] 1895, 8vo, 15s.

GUIDE-BOOKS.

(To be obtained only at the Museum.)

Guide to the Galleries of Mammalia in the Department of Zoology of the British Museum (Natural History). 6th Edition. Pp. 120. 57 Woodcuts and 4 Plans. Index. 1898, 8vo, 6d.

Guide to the Galleries of Reptiles and Fishes in the Department of Zoology of the British Museum (Natural History). 4th Edition. Pp. ix., 119. 101 Woodcuts. Index. 1898, 8vo, 6d.

A Guide to the Fossil Mammals and Birds in the Department of Geology and Palaeontology in the British Museum (Natural History). 7th Edition. [By Henry Woodward.] Pp. xii., 103. 116 Woodcuts. [With List of Illustrations, Table of Stratified Rocks, and Index.] 1896, 8vo, 6d.

A Guide to the Fossil Reptiles and Fishes in the Department of Geology and Palaeontology in the British Museum (Natural History). [By Henry Woodward.] Pp. xiv., 129 : 165 Woodcuts. [With List of Illustrations, Table of Stratified Rocks, and Index.] 1896, 8vo, 6d.

A Guide to the Fossil Invertebrates and Plants in the Department of Geology and Palaeontology in the British Museum (Natural History). [By Henry Woodward.] Pp. xvi., 158. 182 Woodcuts. [With List of Illustrations, Table of Stratified Rocks, Introduction, and Index.] 1897, 8vo. 1s.

The same, in two parts :—

Part I. Mollusca to Bryozoa. Pp. xii., 64. 107 Woodcuts. [With List of Illustrations, Table of Stratified Rocks, and Introduction.] 1897, 8vo. 6d.

Part II. Insecta to Plants, &c. Pp. ix., 64*—158. Woodcuts 108—182. [With List of Illustrations and Index to the two parts.] 1897, 8vo. 6d.

Guide to Sowerby's Models of British Fungi in the Department of Botany, British Museum (Natural History). By Worthington G. Smith, F.L.S. Pp. 82. 93 Woodcuts. With Table of Diagnostic Characters, and Index. [2nd Edition.] 1898, 8vo. 4d.

Guide to the British Mycetoza exhibited in the Department of Botany, British Museum (Natural History). By Arthur Lister, F.L.S. Pp. 42. 44 Woodcuts. Index. 1895, 8vo. 3d.

A Guide to the Mineral Gallery of the British Museum (Natural History). [By L. Fletcher, M.A., F.R.S.] Pp. 32. Plan. 1898, 8vo. 1d.

The Student's Index to the Collection of Minerals, British Museum (Natural History). [By L. Fletcher, M.A., F.R.S.] Pp. 34. With a Plan of the Mineral Gallery. 1899, 8vo. 2d.

An Introduction to the Study of Minerals, with a Guide to the Mineral Gallery of the British Museum (Natural History). By L. Fletcher, M.A., F.R.S. Pp. 123. 41 Woodcuts. With Plan of the Mineral Gallery and Index. 1897, 8vo. 6d.

An Introduction to the Study of Rocks. By L. Fletcher, M.A., F.R.S. Pp. 118. [With plan of the Mineral Gallery, Table of Contents, and Index.] 1898, 8vo. 6d.

An Introduction to the Study of Meteorites, with a List of the Meteorites represented in the Collection. By L. Fletcher, M.A., F.R.S. Pp. 95. [With a Plan of the Mineral Gallery, and an Index to the Meteorites represented in the Collection.] 1896, 8vo. 6d.
